This is in response to the reconsideration petition under 37 CFR 1.47(b), filed November 18, 2004 (certificate of mailing date November 15, 2004).

The petition is granted.

Petitioner has shown that the non-signing inventor, Javier Arguelles, has refused to join in the filing of the above-identified application after having been presented with the application papers. Specifically, the statement of facts of Axel Schaich, Senior Patent Counsel for Infineon Technologies AG, states that Inventor Arguelles received the complete application and that Mr. Arguelles orally refused to sign the declaration for patent application. In addition, petitioner has shown that Infineon Technologies AG has a proprietary interest in the above-identified application with an assignment document signed by Mr. Arguelles. Lastly, petitioner has submitted a declaration in compliance with 37 CFR 1.63 and 1.64 and petitioner has shown that such action is necessary to prevent irreparable damage.

This application and papers have been reviewed and found in compliance with 37 CFR 1.47(b). This application is hereby accorded Rule 1.47(b) status.

As provided in Rule 1.47(c), this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

After this decision is mailed, the above-identified application will be forwarded to Technology Center GAU 2133 for examination in due course.
